

Exploring Suitable Locations for New Sushi Restaurants in Toronto, Canada using Data Science.

Business Problem:

Toronto is a Canadian city with a taste for international cuisine. With diverse ethnic groups and international tourists, there is lot of demand for restaurants in Toronto. Sushi restaurants are exotic and in demand. Investing in Sushi restaurants will provide high returns on investment. There are already several Sushi restaurants in Toronto. But there is room for more. This project will recommend suitable locations to open new Sushi restaurants in Toronto.

Target Audience:

Businessmen/Businesswomen who want to open a Sushi restaurant or expand an existing Sushi restaurant chain in Toronto.
